Dear Ibrahim Rupawala,

Congratulations! I am pleased to notify you that your application for admission to graduate study in the Electrical Engineering, MSEE program at the University of Houston is unconditionally approved! Please respond to the admissions offer by October 30, 2015, to indicate whether you will attend.

As a new member of the UH Graduate community, you will undoubtedly have many questions about what comes next. I would recommend that you start by familiarizing yourself with the [Graduate Catalog](#) and well as the program's [website](#). In the coming days, you will begin receiving communications that may detail information on degree plans, orientations, and other information to get you started.

If you are an international applicant who requires a Form I-20 for your F-1 visa, please note that the I-20 request will be processed as soon as you have accepted the admissions offer and submitted all required documents.

Please note, before enrolling in courses, all new graduate students must submit proof of a completed Bachelor's degree. If we have not received a completed academic record for you, you will not be able to enroll in classes at this time. If you have any questions regarding what materials are missing or how to establish proof of degree, you may contact your Graduate Advisor, Dr. Brandie Yale, at blyale@uh.edu.

The University of Houston is committed to developing a diverse and vibrant community of scholars throughout its many Tier 1 graduate programs. We are excited to invite you to join us. Go Coogs!

Respectfully,

David Jackson, PhD

Director of Graduate Admissions
Department of Electrical & Computer Engineering
University of Houston
