Date:

Respected Sir / Madam,

I have great pleasure in recommending Mr. Ibrahim Rupawala in his pursuit of higher educational qualifications – Master's degree in Electrical Engineering. I have acquainted Ibrahim for the past four years as a student of undergraduate studies under the electronics engineering program in our institute where I offered courses for Basic Electronics and Antenna & Wave Propagation.

Mr. Ibrahim Rupawala has distinguished himself as one of the best student in the class. He was active and diligent class participant and brings together an Engineer's analytical approach, a keen grasp of basic facts coupled with mathematical knowledge, which he applies efficiently to problem solving. He has always exhibited fecundity of mind. He is an ardent learner and likes to go beyond the theoretical purview, to practical applications of his subjects and his perseverance enabled him to achieve his goals in the laboratory session and individual visits.

Added to this he has completed his final year project - "Spy / Video Surveillance Robot", under my guidance and as his project advisor, I have observed and monitored him at close quarters. He is a person with positive attitude towards life and enjoys his work. I find him to be dedicated and industrious student and am confident that he will excel in his higher studies.

In a nutshell, Mr. Ibrahim Rupawala is a multifaceted person with a zeal for academic, cultural and extra – curricular activities. I am confident that your esteemed university will be an ideal place for him to improve upon his existing skills through pursuing a master's program. I strongly recommend him for admission to the graduate program with financial assistance.

Yours Sincerely,

Mr. Rahul Gonawala

Associate Professor, Electronics & Communication Engineering Department
