About the job

WHAT YOU DO AT AMD CHANGES EVERYTHING

We care deeply about transforming lives with AMD technology to enrich our industry, our communities, and the world. Our mission is to build great products that accelerate next-generation computing experiences – the building blocks for the data center, artificial intelligence, PCs, gaming and embedded. Underpinning our mission is the AMD culture. We push the limits of innovation to solve the world's most important challenges. We strive for execution excellence while being direct, humble, collaborative, and inclusive of diverse perspectives. This is who we are at our best. One Company. One Team.

AMD together we advance_

PRODUCT DEVELOPMENT ENGINEER

The Role

As a Product Development engineer, you will collaborate with various Product Development Groups to bring-up and ramp new products which include Plan, debug and handle manufacturing and characterization test programs for next-generation AMD microprocessors.

The Person

A successful candidate is one who can drive technical decisions independently, has accountability for accuracy, reliability and completeness of assignment results critical to the project's success.

Key Responsibilities

- Develop test program infrastructure incorporating latest Best-Known methods
- Validate new product features, test conditions, test methodologies, and test contents during first silicon bring-up
- Post Silicon Bring up of Test patterns leading to optimization for mass production enablement
- Analysis of part failures leading to test improvement
- Test pattern & test flow development, debug, test, and characterization

Preferred Experience

- Experience with scripting languages such as Perl, Ruby, shell script
- Proficient in Linux, Unix, or Windows OS
- Experience in silicon debug, logic analyzers, voltmeters, oscilloscopes
- Statistical analysis experience to resolve population mean and outliers
- ATE (Automatic Test Equipment) test experience

ACADEMIC CREDENTIALS: Bachelor or master's degree in electrical engineering, computer engineering, or comparable disciplines

LOCATION:

Austin, TX

At AMD, your base pay is one part of your total rewards package. Your base pay will depend on where your skills, qualifications, experience, and location fit into the hiring range for the position. You may be eligible for incentives based upon your role such as either an annual bonus or sales incentive. Many AMD employees have the opportunity to own shares of AMD stock, as well as a discount when purchasing AMD stock if voluntarily participating in AMD's Employee Stock Purchase Plan. You'll also be eligible for competitive benefits described in more detail [here](#).

AMD does not accept unsolicited resumes from headhunters, recruitment agencies, or fee-based recruitment services. AMD and its subsidiaries are equal opportunity, inclusive employers and will consider all applicants without regard to age, ancestry, color, marital status, medical condition, mental or physical disability, national origin, race, religion, political and/or third-party affiliation, sex, pregnancy, sexual orientation, gender identity, military or veteran status, or any other characteristic protected by law. We encourage applications from all qualified candidates and will accommodate applicants' needs under the respective laws throughout all stages of the recruitment and selection process.
